### EVENT PROFILE

“CEMS Global” brings to you the “6th INTERNATIONAL SAFETY & SECURITY EXPO BANGLADESH 2023” scheduled to be held from 7 – 9 December, 2023, will be a glittering showcase of the Safety & Security products and services-based industry. The security system is an important and essential factor in modern life in order to protect wealth, life and other assets of high commercial value as well as private institutions. It is of utmost importance to protect the large areas such as factories, substations, power plants, commercial & residential buildings, and other important institutions with automatic fire fighting and security surveillance system.

This security sector is an area of which people are currently becoming more aware and in turn, are investing more money to avoid the adverse consequences from the lack of these precautions. In order to protect oneself from Catastrophic Events occurring; all forms of prevention are necessary in order to be prepared.

Therefore, the necessity of firefighting systems and other relevant security devices is increasing every day. People in developing countries such as Bangladesh require a lot of safety awareness and the trend for obtaining protection services is increasing rapidly nowadays. The '6<sup>th</sup> INTERNATIONAL SAFETY & SECURITY EXPO BANGLADESH 2023' will reveal to the country the rapid developments in the industry and will be a launching pad for many security measures as well as new technology components. The neat layouts of the show will provide many opportunities to the consumers of the safety and security industry to see the latest offerings in the market as well as to the business visitor to carry out networking in a highly enabled environment.

The Safety & Security Expo is therefore not only a networking ground, but also a place to find business partners and strategic alliances for manufacturing, outsourcing, sub-contracting, design and development as well as direct marketing.

## ABOUT BANGLADESH

Bangladesh is a land of mystery and intrigue. The country is centuries old and while it has seen many visitors over the years, it is only now starting to experience a commercial tourism boom. In many respects, Bangladesh is a land of opportunity and adventure. All you need do is step out and discover its many mysteries for yourself.

There are so many things to be enjoyed here. Perhaps one of the most popular activities is that of sunning yourself on the exquisite white sandy beaches of Cox's Bazaar and Teknaaf. Both beaches are situated on the eastern coast of the Bay of Bengal and are relatively unspoilt by tourists making them a great place to spend vacation time.

Another attraction is the many archaeological sites in the country. They are interesting from a cultural and architectural point of view and can be fascinating to tour. Bangladesh's other attraction is a bit livelier – the Royal Bengal Tigers which have become somewhat of a trademark for the country. These stunning big cats are somewhat protected in the country and are stunning to behold! Bangladesh is also home to the longest sea beach, the largest tea gardens and some amazing exotic animal life. To top it off, the people of the country are colorful and friendly and have a fascinating culture.

There is a lot to do here. You can choose things such as trekking and adventure tours. Most of the activities give you the opportunity to take in the beautiful green mountains, sparkling rivers and clear vistas. The natural wealth of the area is, in many respects, unbeatable. Bangladesh is a paradise just waiting to be discovered!

## WHY BANGLADESH? WHY NOW?

The International Labor Organization's 'Improving Fire and General Building Safety in Bangladesh' project funded by the US Department of Labor has made a major contribution in this regard. Through its efforts, significant headway has been made in building the capacity of the Fire Service and Civil Defense department. The fire service is now well on its way to realizing its goal of modernization and having the capacity to provide the services society requires. Significant work has also been undertaken to help create a more solid regulatory foundation upon which future safety efforts can be built. The project contributed greatly to the harmonization of inspection standards and remediation protocols for RMG factories. In the aftermath of Rana Plaza this work was vitally important as a number of initiatives sought to rapidly carry out inspections of RMG factories for structural, electrical and fire safety.

## PROFILE OF EXHIBITS

Airport Security | Alarms, Alarm Receiving Centers, Intruder Alarms | Ambulances | Automatic Sprinkler Systems | Batteries and Chargers | Breathing Apparatus | CCTV camera, System, Equipment| Chemicals, Fluids and Lubricants | Coastal Security | Command Control Systems | Communications and information products & technology | Confined-Space Rescue Equipment | Data Processing, Data Transmission, Encoders/Decoders | Deluge Walls & Water Spray Systems | Detection Equipment | Defibrillator kit | Door

Control Hardware | Electrical Safety | Emergency alarm & warning systems | Emergency escape smoke hood | Emergency medicine and epidemic prevention | Emergency Rescue Engineering | Emergency Signage's & Lighting | EMS Supplies, First Responders Equipment | Engineered Fire Suppression Systems | Equipment and Appliances for Fire Fighting Vehicles | Equipment for fire stations and workshops | Equipment/Accessories for Ambulance & Specialty Vehicles Evacuation Systems | Escape Ladders /Hydraulic systems | Extrication Equipment and Tools | Fire Alarm, Monitoring Systems & Services | Fire Detection & Alarm Systems-Heat, Smoke & Fire | Fire Doors and Shutters | Fire Engines | Fire extinguishing Appliances, Equipment and Systems | Firefighting suits & Clothing | Firefighting Tools & Equipment | Fire Hydrant Systems and Guard Devices | Fire proof Coatings, Fire Retardant Glazing, Fire proof cables & Panels | Fire Protection Systems and Materials | Fire Trucks | Fire/Explosive Detection & Suppression | Firefighting Tools & Equipment | Fire-ground Suits, Gloves / Gauntlets, Helmets/Caps, Lifebelts/ Lifejackets | First Aid & Medical Equipment and Services | Floodlights / Searchlights | Gas Detection | Hand Tools, Knives and Scissors | Hazmat and WMD Response Equipment and Supplies| Heat Detection Systems | Hose / Reels / Nozzles / Adapters, Labels and sign ages | House & building automation for security applications | Infrastructure Security | Insurance Companies| Integrated Access Control System | Intruder and burglary detection & alarm equipment | Labels and signage | Life Detection Equipment & Lifting Devices & Equipment | Mechanical Security Systems and Devices | Medical and Surgical Assistance and Supplies | Mobile hospitals, medical services, stretchers | Monitoring Systems | Non-Physical Access Control | Radiation Detection/Protection Systems | Relief & Rescue Systems | Remote monitoring control system for fire | Rescue Vehicles | Safety Cabinets, Accessories & Uniforms | Scanners and Walkthrough Metal Detectors | Search & Rescue Vehicles & Equipment | Security Services Providers| Sensors/Shock Sensors | Sirens and Horns | Smoke Detection Systems | Structural engineering, technical fire and building protection | Suppression Systems | Surveillance and Signaling Technologies and Equipment | Tents & Shelters, Stretchers | Thermal Imaging Cameras, Search & Rescue | Traffic Management System | Traffic Safety Management | Trailers | Transport Safety | Water Detection Systems | Workplace Safety Equipment's etc.
